

Waiting to Talk

My teacher talks to many people.

Sometimes when she is talking to other people I want to talk too.

I can say, "Excuse me" to see if she can talk to me.

Sometimes my teacher will answer me right away.

Other times my teacher is talking about something very important. She may not be able to answer me right away.

If I say, "Excuse me," and my teacher doesn't answer, I will wait until she is finished.

This will make my teacher happy.
